# STAINLESS STEEL MAINS PRESSURE

**THE  
SILVER  
BULLET**  
Lightweight. Future-proofed.

## KEY FEATURES INCLUDE:

- Standard sizes 45-300 litres (see reverse)
- Mains, medium and low pressure options
- Custom made model up to 800 ltr
- Lightweight, easy installation
- Future-proofed
- Duplex stainless steel barrel to withstand high temperatures without damage to the cylinder
- Options for Solar/Wetback/Heat pump/Radiator-boiler systems/Underfloor & Outdoor
- Direct and coil models for the above systems (also twin coil)
- Double element option for quick heat recovery
- Nation-wide free delivery
- Long life incoloy elements
- Left and right connections
- Low power usage through high density insulation
- Foamed with CFC - free, non-ozone depleting polyurethane
- Energy efficient - NZ MEPS Compliant
- Suitable for a wide range of water conditions
- Low maintenance

Our smart design and manufacturing process ensures that 'The Silver Bullet' is the best choice for a future proofed hot water cylinder you can rely on for durability and efficiency

Peter Cocks Hot Water Cylinders

**100%  
NZ DESIGNED & ASSEMBLED**

# THINK PETER COCKS FOR ALL YOUR WATER HEATING NEEDS

## SUPERIOR QUALITY

Silver Bullet stainless mains pressure cylinders are manufactured to meet New Zealand minimum energy performance standards (MEPS).

## COMPATIBILITY

Models to suit most systems including solar, wetback, heatpump, radiator boiler systems, underfloor & more.

## ALL PRESSURE

Supplied as a choice of a low, medium, or high pressure unit. The Silver Bullets maximum inlet pressure is 500kPa.

## SOLAR EFFICIENCY

The Silver Bullet can be specified with connections for both open and closed circuit solar heating for simple adaption to solar energy, enabling your household to reduce energy consumption.

## INTELLIGENT DESIGN

For all pressure future proof thinking and triple inlet replacements.

## EASY INSTALLATION

The Silver Bullet is light weight and easy to install, and is manufactured to all relevant building codes. When installed correctly, they comply with the requirements of the New Zealand building code, G12/AS1 and MEPS regulations.

**All cylinders supplied with 10kw TPR Valve 850kPa, except Wetback models supplied with 46kw TPR Valve 850kPa**
